To Whomever it May Concern

Re: Law Offices of Karl Krooth

Karl Krooth has an excellent understanding of the consequences of crime in immigration law. We refer cases to Karl for consultation about immigration consequences. Our clients have benefited from Karl's quality advice and representation. While Karl offers professional opinion letters for use by immigration attorneys in conducting their cases, we have also referred difficult matters to him for representation. For example, he successfully handled a naturalization case of a foreign national with multiple felony and misdemeanor convictions. We look forward to consulting with Karl in future cases.

Sincerely,

Charles E. Small
